SUMMARY

Intermediate Software Developer with over 3 years of Software development experience. Proficient in React.js, JavaScript, OOP and CSS, successfully designed and coded 15+ user-friendly interfaces, enhancing client performance and revenue by over 60%. Adept at converting user requirements into technical requirements and then functional websites, having created over 50 wireframes and mock-ups. I bring strong analytical skills and quality assurance expertise to deliver high-quality software solutions that meet the needs of stakeholders in any innovative development team.
